**SAFETY NOTICE:** We recommend installation be done by a professional or persons with sound mechanical knowledge.

**WARNING:** These instructions are a general guide for installation. SuperSprings International, Inc. assumes no liability for the actual installation process. Consumers and installers should apply common automotive safety practices when raising and working on any vehicle. **Do not put yourself in a position where, if the vehicle were to move unexpectedly, you may be injured.** SuperSprings' products are designed to improve vehicle ride quality. Do not load any vehicle beyond the manufacturer's specifications.

**Never exceed the manufacturer's Gross Vehicle Rating (GVWR) located on your vehicles identification tag.**

**BEFORE INSTALLATION:** Ensure the vehicle is on a level surface, the parking brake is ON, with the ignition OFF, and place blocks in front of and behind the front tires to prevent the vehicle from moving.

**DURING AND/OR AFTER INSTALLATION:** Ensure emergency brake cables are not touching the SuperSprings. Secure any cables out of the way with zip ties or by re-routing. **Ensure all A/C lines, brake cables, and frame are clear of contact or interference.**

**REV. 1.01 | OCTOBER 2021**

PART NUMBER

**SSR-701-40**

**IMPORTANT NOTICE:** Your part may have been loosely preassembled to show the final product as it will be once installed on your vehicle. Please disassemble the product before proceeding to the installation.

**INSTALLATION**

1. Park the vehicle on a hard, level surface and engage the emergency brake. Place blocks in front and behind the wheels to prevent rolling. Observe all safety precautions and wear safety glasses.
2. Raise the front of the vehicle to allow the suspension to hang freely and support the frame using safety jack stands. Removal of the front wheel is optional.
3. Remove existing bump stop from the underside of the chassis and set aside. To remove pull firmly and rotate out of the holder bracket.
4. Attach the Bottom Bracket to the underside of the SumoSpring [ITEM A] using the 3/8"-16 x 7/8" FHCS [ITEM E].
5. Place the assembly on the axle with the outside edge of the Bottom Bracket [ITEM D] against the spring-pack, between the factory u-bolts. Attach the Bottom Bracket [ITEM D] to the axle using the 5/16" Round U-bolt [ITEM F], the 5/16" Top Lock Nut [ITEM B] & the 5/16" Washers [ITEM C].
6. Tighten the nuts securely, but be sure not to over-tighten/bend the u-bolts or the bracket.
7. Repeat steps 3-5 on other side.
8. Raise the vehicle, remove safety jack stands, and carefully lower vehicle to the hard surface. Remove the blocks in front and back of the rear wheels and release the emergency brake.
9. Register the warranty for your SuperSprings International part. A warranty card can be found in the box your part came in.
